

Here are the instructions to the first part of the HAUNTED CAVES project!

Haunted caves are dim places, habited by an eerie atmosphere. Now that you have read a few spooky stories related to those grotto, we feel you would be ready to recreate your very own.

Whether it is in your basement, your wardrobe, your garden shed, underneath your balcony, we are certain there is a place at home you can use to replicate one of those spine chilling places!

BE CREATIVE!

Once you are done, we will ask you to take pictures of your cave and, if possible, we will invite you to sit in it for Thursday's meeting !

GooOOooOOoOooooOOOod Luck ;)
