

# Monsters' crew

Remember Monster Inc.? This crew of monsters have the job to scare little kids. It turns out that they are not so scary when they become friends with a cute little human called Boo.

You will have to create a crew of friendly monsters with your team.

Each **monster** must include:

- Its name
- Its physical description
- Where it lives
- What its job is (ex: It eats the dust under your bed)
- A story that has happened to the monster.

\*\* It needs a beginning, middle, and end with a **problem** and a **solution**. \*\*

# Monster 1

# Monster 2
