

# THE FOREST

The forest were very dark  
this night Strangely we didn't  
heard any noise this night  
except one I will tell you the  
creepiest experience of my life

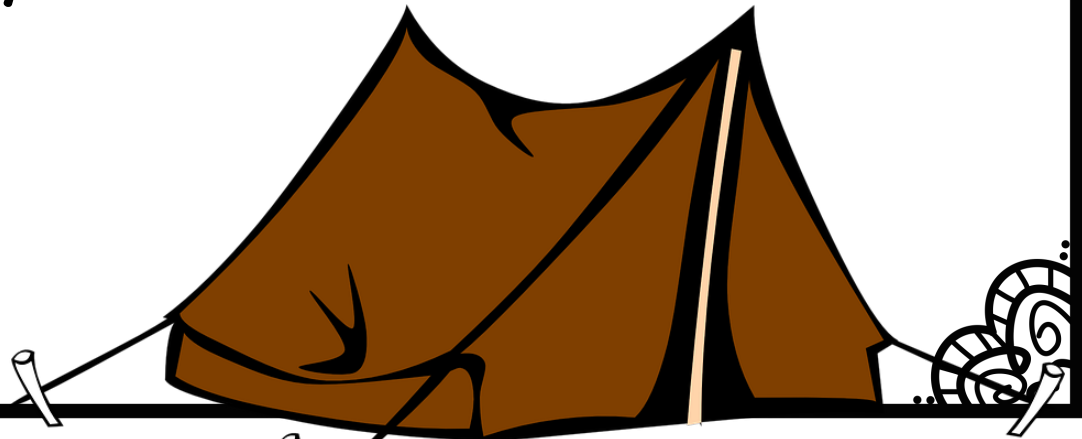

My friend Carl and I  
was walking in a gloomy  
forest I checkt my watch and it  
was 11:40 PM We should left said  
Carl I responded not now How  
about 20 minutes and then we  
leave

Afterward we heared a very loud  
grunt and some footsteps We  
ran but the beast was too fast  
for us Suddenly the beast caught  
my friend but I didn't saw it

Frighten I ran and founded a  
camp. The next morning I tryed  
to found my friend Carl I only  
saw him in the evening What  
happened to you Carl I shouted

He was alive but he were  
really horrible conditions

He was injured all over his body I  
seed many claw marks and he  
was missing a leg We never goed in  
that forest again
