OBSERVATION LOG

Look at the scene. Explain what you understand from evidence left.

What do you see on the crime scene?
(clue/evidence)

What does this clue mean? (inference)

Clue #1
Phone conversation

Clue #2
Gym bag

Clue #3
Hoodie

Clue #4
Hair

Clue #5
Footprint

EXAMPLE- IT'S A MYSTERY

Writing - Brainstorming

Now that you have observed the crime scene and record information. You need to tell me the story behind Meredith Smith's robbery. THIS IS MY PLAN, MY EXAMPLE.

The introduction

Introduce yourself as the detective and what you will investigate.

- Detective Jane Bond
- The robbery of Meredith Smith's jewels

The setting

Include the following: date, time, location

- March 3th 2022
- At 8:30 PM
- In Mrs. Smith's bedroom

The conflict:

Tell us through how the crime scene happened. How was Meredith robbed? Describe it in details. How did the culprit steal Meredith's jewels ?

- Meredith arrived home from work
- Door was opened
- Alarm was off
- Jewels were stolen in the bedroom
- Someone entered the house with a key
- No sign of forced entry
- She called police
- Looked at security cameras
- Found a man

The resolution:

Who was found guilty? What were the clues that helped you solve the crime? What was their punishment?

- James, the ex-boyfriend
- The fingerprints and security footage
- He was charged with robbery, trespassing and forced entry.

EXAMPLE -THE MEREDITH SMITH'S CASE

With the brainstorm, write down what happened on the night of the crime.

Created by Marie-Camille Lepage

I am Detective Jane Bone. I will investigate the robbery of Meredith Smith's jewels.

This young lady was robbed on March 3rd 2022 at around 8:30 PM. The victim found all her expensive jewels disappeared.

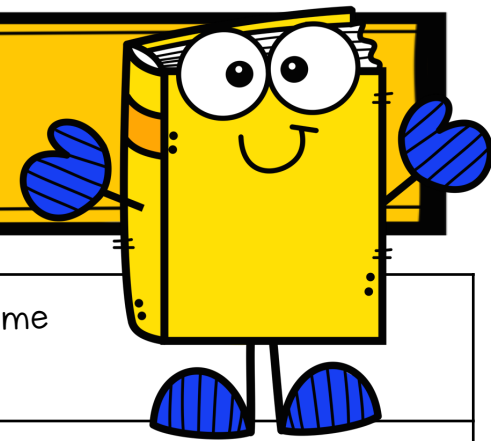

As a detective, I observed the crime scene, the clues and ask questions to suspects and to witnesses. Here is what I concluded: it all started when Meredith came back from work. Usually, she worked late every Tuesdays. So, like every Tuesday, she arrived home around 9:00 PM. At that moment, she noticed her garage door was opened. When she entered her condo, there was no sign of forced entry. The alarm was off. She thought it was strange but, she continued to look around and went in her bedroom. Not long after, she did not see the jewels. She called the police, and I was assigned the case.

The security cameras of the condo demonstrated that a man entered her home at 8:30 PM with a key and the alarm code so, it was someone she knew. Instantly, we suspected her ex-boyfriend of 10 years who was angry at her for ending the relationship. He still had access to her keys, codes and schedules.

After further investigation, I talked to the ex-boyfriend, James. He had no choice but to admit his guilt. Not only did we retrieve a fingerprint on the alarm set and the bedroom doorknob but, we also had him on the security cameras. He entered the home easily and stole what was most precious to Meredith, her jewel collection. He did not know there were security cameras on the premises. He will be charged with robbery, trespassing and forced entry.

IT'S A MYSTERY

Writing - Brainstorming

Now that you have observed the crime scene and record information. You need to tell me the story behind Owen Stuart's robbery. THIS IS YOUR PLAN.

The introduction

Introduce yourself as the detective and what you will investigate.

The setting

Include the following: date, time, location of the crime.

The conflict:

Tell us through how the crime scene happened. How was Owen robbed? Describe it in details. How did the culprit steal Owen's secrets ?

The resolution:

Who was found guilty? What were the clues that helped you solve the crime? What was their punishment?

THE OWEN STUART'S CASE

With the brainstorm, write down what happened on the night of the crime.
