

CONCLUSION

THE STOLEN iPhone SECRETS.

I am detective Marie-Camille and today I will present to you my on-going investigation conclusions of this unusual crime. The robbery happened the night of March 3rd, 2022. There was a robbery at Owen Stuart's Mansion. He is the president of Apple. The secrets of the latest iPhone were stolen. The culprit forced the safe inside Mr. Stuart's bedroom and stole the blueprints of the new iPhone. The rich man came back from the gym at around 9:30 when he noticed the crime.

On the crime scene, a cellphone was retrieved. This cellphone was Owen's device he used. He clearly had a conversation with a strange person. I can tell he suspected it was Cassidy, his ex-girlfriend. Moreover, the gym bag proved he just finished his workout, and he was coming back home to get ready for his soccer game. The hoodie was Owen's. He wore it most games to warm up.

A suspicious piece of evidence found on the crime was the long brown hair. It was indeed Cassidy's hair with her DNA. But then again, they had recently split so she had worn the hoodie a few days ago before that break up. She would always wear Owen's clothes to sleep. That hoodie was one of her favorites. I personally consider Brandon Manning the prime suspect, as his alibi was not confirmed by anyone. While Cassidy had a clear alibi, which was testified by her mother who swore under oath.

The final evidence found outside the crime scene was a size 8.5 footprint. We could tell it was from the brand Nike. Both suspects have shoes of this brand.

I will investigate more into the alibis and try to find possible proof that Mr. Manning was, in fact, at his house the night of the crime.

Here is what REALLY went down.

The night of the crime, Owen Stuart was working out at his local gym. When he saw Cassidy, he felt uneasy. They talked for a few minutes. Cassidy wanted to get back with Owen. Cassidy was, indeed, one of the last people to see Owen Stuart before the crime. When he finished talking to Cassidy, he decided to leave the gym as soon as possible. On his way home, he listened to his favorite song so he could calm down from seeing Cassidy. Arrived home, he went to his bedroom to change for his soccer practice. At that moment, he noticed his safe was opened and the new iPhone blueprints were taken.

After further investigation, I can prove that Brandon Manning committed the crime. He was tired of Owen making all the decisions and not letting Brandon take the lead on the latest iPhone. Brandon had vision of what Apple could be and Owen refused to invest in his ideas.

The text message was really from Cassidy. She wrote to him because she was mad at him. Once it was sent, she regretted her words. That's why she talked to Owen at the gym. She apologized to Owen for what she had written. Owen could not believe how immature she was so, he refused to get back with her.

Owen did not see the crime coming. Brandon played the game very well and never let Owen see one bit of his aggressiveness towards him. So out of anger, he decided to steal Owen's secrets and unsuccessfully got away with it. The hoodie was also Owen's. Cassidy had just given it to him because she knew it belonged to Owen. She also knew it was one of his favourite hoodies. When they saw each other, Cassidy gave it back and Owen put it in his gym bag. That is why it was inside the gym bag after the robbery happened.

After the crime, Brandon left a footprint on the crime scene when he ran away from the mansion.

He will be charged with trespassing, forced entry and robbery, and might face 15 years in prison. We were able to find out Brandon was the culprit because there were cameras on Owen's property. I am thankful for technology as it helped me solved the Owen Stuart's case. Here it is people, the truth and nothing but the truth.

See you soon,

Detective Marie-Camille
